Key Professional Position

- Director of the National Centre of Distance Education and has been an Invited Lecturer at the Catholic University "Our Lady of Good Counsel" since 2004.
- Team leader for international research projects in collaboration with German and Italian universities, focusing on population variability and environmental education.

Biography & Academic Career

- Early Career: Began as a biology teacher in 1975 before joining the University of Tirana in 1980.
- Education: Completed advanced scientific training at the University of Milan, earning a PhD-equivalent diploma in 1984.
- Professional Milestones: Awarded the titles of Docent (1992), Assistant Professor (1994), and Professor (1999).
- Leadership: Served as Director of the National Centre of Distance Education and has been an Invited Lecturer at the Catholic University "Our Lady of Good Counsel" since 2004.

Research Expertise

- Population Genetics: Specialized in analysis of variability through surname distribution (isonomy) and numerical taxonomy.
- Molecular Biology: Expertise in DNA sequencing, PCR amplification, and the study of genetic disease expression.
- Biotechnology: Researches the ethical and technical aspects of GMOs and agricultural biotechnology.
